Co-funded by the European Program Erasmus+, the Cerasmus+ relies on three pillars:

**Heritage
innovation
network**

info

aims

The **Cerasmus+** project aims to protect the EU traditional heritage and to modernize the ceramic sector through **3 main objectives**:

- 1. Creating a European networking** of ceramic stakeholders
- 2. Combining ceramics tradition with innovative design** and production techniques
- 3. Revising and innovating** vocational education in the ceramics sector through work based learning models

This project has been funded with support from the European Commission. This deliverable reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

actions

The **Cerasmus+** project implements as first step a field analysis to explore the needs for competences, for assuring the sector development through networking, protection of immaterial heritage and innovation.

The second step is the design and implementation of an on-line virtual environment addressed to ceramics key actors and stakeholders to discuss the main issues emerged from the assessment stage and to open a permanent forum and assuring closer cooperation.

Finally, the project foresees the planning and testing of specific curricula for initial and continuous vocational training, focused in work based learning and aimed at gaining trasversal and professional competences for the improvement of sector "value chain".
